PI1200 Product Indicator

Liquip offers product indicators to be used on tanker trucks with multi-use compartments to allow users to easily identify compartment contents.

The PI1200 mounts at outlet valve to display name of product contained within.

When product is loaded, driver turns handle to display applicable product. Must be reset at every load. Push and turn, spring loaded operation to prevent accidental movement on rough roads.

Key Features

- Can be loaded to display up to 12 products.
- Standard product label is fitted with 12 most common products (other labels available on request).
- Quick and easy changeover between labels.
- Lightweight & durable design.
- Commonly mounted to the 4” TMMA API adaptors flange for easy viewing.

Ordering Information

- **PI1200** 12 position product indicator fitted with standard label.
- **PI1202** 12 position product indicator without label.
